

ONLINE TEAM & COMPANY STORES

Stop collecting cash and size sheets.

We build your team, club or company a private online store. Everyone orders their own size and pays their own way. You get one consolidated order and a clean summary at the end.

How it works

- 1 We build it**
Send us your logo and the items you want. Any style in this catalogue can go in your store. We set it up with your branding, prices and open and close dates.
- 2 You share one link**
Post it, email it or put it in the team chat. Everyone orders their own size and pays for their own order.
- 3 The store closes**
On your close date we go straight into production with one consolidated order.
- 4 We deliver**
Bulk delivery to one location, or individual shipping straight to each person.

Why groups use them

- No money collection
- No size sheets
- Your dates, or year-round
- Fundraising margin built in
- One order, volume pricing
- We answer the order questions

For most teams and companies there is no setup fee. We confirm the details with you before anything starts.
